JacketCo E-Commerce Website

Project Overview: JacketCo is a React.js-based e-commerce website showcasing stylish jackets. It features a responsive design with a clean interface, focusing on visual appeal and user experience.

Key Features:

- **Hero Section:** Highlights the brand's tagline.
- **Product Display:** A grid displaying jackets with images, titles, prices, and a "Buy Now" button, arranged in rows of three.
- **Navigation Bar:** Smooth scrolling navigation.
- **About & Contact Section:** Simple, split-section layout with brand info and contact form.

Technology Stack: React.js, Bootstrap for styling.

Dummy Data: 8 dummy jackets with images, titles, prices, and brief descriptions
